

Perfectly Paired

-a monthly wine & cheese gallery experience

The pandemic has given us the opportunity to creatively change some of our signature Arts Center programs to safely enjoy all that culture and the arts have to offer. Over the next six months, in association with the opening of each new exhibition we will be offering an “exclusive” wine and cheese tasting for XX participants aptly named *Perfectly Paired*, because what’s better than curated wine and cheese pairings coupled with art. Sommelier Karla Sandness will be choosing each exhibition’s pairings which may be inspired by the art or other common theme. To be sure, the wine and cheeses will delight your palate. This program is first-come-first-served to sign up for participation and if you register for all the dates you will receive a discount. Here are the dates, call soon to save your spot. This event is a fundraiser and will help support Arts Center programs during this uncertain time.
